

# Appendix A: Law Enforcement Officer Accountability Database Matrix

This appendix contains a list of the law enforcement officer accountability databases that we have encountered in our research. This is by no means an exhaustive list of all law enforcement officer accountability databases that exist in the United States but is a helpful tool to understand the breadth and diversity of databases.

| #                                       | Location                 | Database Name  | Jurisdiction Type |       |           | Administrator |            |
|---|--------------------------|--|-------------------|-------|-----------|---------------|------------|
|   |                          |  | National          | State | Municipal | Independent   | Government |
